Light Play

The idea is to create an image in which some interesting aspect of light is the/a major element of the image. This challenge could involve high contrast, soft light molding a subject, a reflection, multiple tones in the images, shadows, or even a sunset.

Nature

Nature photography depicts the natural world. Subjects include living animals, birds, insects, botanical, landscapes, seascapes, geologic formations or weather phenomena. There should be minimal “hand of man” in the image.
